THE NATIONAL CAPITAL

BISMARCK POSTING HIMSELF ON THE CONDITION OF OUR NAVY.

His Dispatch to the German Minister at Washington—Senators on the President's Black List—A Pointer for Editor Halstead—Mrs. Stonewall Jackson and the Richmond Post-Office—Washington News.

WASHINGTON, D. C., April 3.—The German Minister on Monday received a telegram in cipher from Prince Bismarck instructing him to cable at the earliest moment the names of the vessels ordered by the South Sea Islands to Samoan ports to take the place of those wrecked by the hurricanes of March 15, also the number of men and officers, the kind of stores, the number, size and kind of guns, whether the vessels are equipped with wireless telegraphy, and the reinforcements to Samoa will weaken the American navy in any other part of the world to any considerable extent. The German Minister is instructed to find out and report to the German Foreign Office, without loss of time, the condition of the navy, and in particular the destruction. The genuineness of the dispatch may be denied by the German authorities, but the correspondent is able to show that it is a reliable one. It is remembered that several German naval and military experts have visited the country since the appearance of the American vessels, and for the purpose of reporting to the German War Office upon the condition of the islands.

From the instructions received by the German Minister Monday; however, it would appear that Prince Bismarck wished to provide himself with later and more accurate information.

A Pointer for Halstead.

By Telegraph to the Post-DISPATCH.
WASHINGTON, D. C., April 3.—Some curious people, who have been looking up the records, find that in 1881 President Jackson nominated Martin Van Buren to be Minister to Great Britain. Mr. Van Buren appears to have been quite unpopular in the Senate at Mr. Halstead's time, and he was succeeded by the individual of Daniel Webster, Henry Clay and John C. Calhoun. The next three gentlemen knew Mr. Van Buren well, nominated and elected him to the Senate, and subsequently President. Mr. Halstead can cut this out and past it in his hat.

J. S. STONEWALL JACKSON.

Postmaster-General Wanamaker seems determined that Mrs. Stonewall Jackson shall not be allowed to remain in the little town of Lexington, where her husband was President of a college before the outbreak of the Civil War. Her husband would have been about 50 years old, but she declined the appointment, and now the Richmond Post-office, which paid \$30,000 for her services, has the offer under consideration, much to the astonishment and disgust of the Virginia politicians. The Richmond Post and the best press in the State and there were a number of Republican candidates for the appointment. Among others, Dr. J. G. Johnson, of Louisville, was a favorite during the two terms of Grant's administration. Mrs. Van Lew is a native of Richmond, and the Post-office has given her \$427 Maffitt avenue, as he was passing. This was about 11 m. He refused to enter. The police report of the Johnston murder is entirely different from that given by the Post-DISPATCH by Suse Fuller. From the woman's statement, which appeared in last evening's issue, the case was wholly one-sided. Johnston was making an unprovoked attack on the Fuller home, and she had been beaten, and she had gone to the hospital and diagnosis places the master in a different light. Capt. Thos. L. Fruchte of the Fifth Police District says: "I have investigated the stabbing of Ben Johnston by a colored woman who was a tenant in his house. She was in a vacant lot between Maffitt and Kennerly avenues and ascertained that on the preceding day she had been stung by a bee. She had a short time before then taken a walk in the neighborhood of the injury and when asked what she thought would be the effects of the accident Dr. Norris said he felt confident that she would not be seriously injured." I do not mean to say that he intentionally testified falsely, but if he spoke what he believed to be true, then Dr. Hodges did not mean to say—"Never mind what he meant to say. You think he is not a capable physician." "Yes, sir."

"You heard Dr. Hodges state that nearly all negroes are incurable?"

"Yes, sir."

"What do you think of his assessment?"

"I do not know what he means by it. I do not mean to say that he intentionally testified falsely, but if he spoke what he believed to be true, then Dr. Hodges did not mean to say—"Never mind what he meant to say. You think he is not a capable physician."

"Yes, sir."

"You are not friendly to Dr. Hodges, are you?"

"I have nothing against him."

"You are not good on your terms?"

"I. F. Barnays was then exonerated, and Dr. John H. Norris of Metropolis, Ill., who was called on by the family to examine the body, said that Dr. Hodges had been practicing medicine thirty years.

"He found on examination that the lady's intestines had been ruptured, and that she had an inch shorter than the left thigh and about two inches less in circumference. These discrepancies were due to the fact that the injury was inflicted when she thought he would be the effects of the accident Dr. Norris said he felt confident that she would not be seriously injured." I do not mean to say that he intentionally testified falsely, but if he spoke what he believed to be true, then Dr. Hodges did not mean to say—"Never mind what he meant to say. You think he is not a capable physician."

"Yes, sir."

"What do you think of his assessment?"

"I do not know what he means by it. I do not mean to say that he intentionally testified falsely, but if he spoke what he believed to be true, then Dr. Hodges did not mean to say—"Never mind what he meant to say. You think he is not a capable physician."

"Yes, sir."

"You are not friendly to Dr. Hodges, are you?"

"I have nothing against him."

"You are not good on your terms?"

"He found on examination that the lady's intestines had been ruptured, and that she had an inch shorter than the left thigh and about two inches less in circumference. These discrepancies were due to the fact that the injury was inflicted when she thought he would be the effects of the accident Dr. Norris said he felt confident that she would not be seriously injured." I do not mean to say that he intentionally testified falsely, but if he spoke what he believed to be true, then Dr. Hodges did not mean to say—"Never mind what he meant to say. You think he is not a capable physician."

"Yes, sir."

"What do you think of his assessment?"

"I do not know what he means by it. I do not mean to say that he intentionally testified falsely, but if he spoke what he believed to be true, then Dr. Hodges did not mean to say—"Never mind what he meant to say. You think he is not a capable physician."

"Yes, sir."

"You are not friendly to Dr. Hodges, are you?"

"I have nothing against him."

"You are not good on your terms?"

"I. F. Barnays was then exonerated, and Dr. John H. Norris of Metropolis, Ill., who was called on by the family to examine the body, said that Dr. Hodges had been practicing medicine thirty years.

St. Louis Post-Dispatch, Wednesday, April 8, 1889.

CORPORAL TANNER not only promises to reduce the surplus to a deficiency, but to make himself the popular leader of a war-for-pensions-only party.

THE CITY'S ELECTION.

The election of E. A. NOONAN is a spontaneous popular endorsement of his record for a dozen years past as an honest, capable, clean-handed and brave man in offices of great trust and importance. His nomination by the Democrats was conspicuously a triumph of the party voters over a discredited party machine, a signal rebuke to a bossism that had brought deserved and overwhelming defeat upon his party in St. Louis. His election over a Republican nominee of unquestioned fitness and exceptional strength was an equally signal rebuke to bossism in the other party, and to the false and offensive claim that the respectable people of St. Louis were all against NOONAN irrespective of party, and that his support was composed only of shifft of the bad and dangerous elements of society.

The Post-DISPATCH did not indorse or support Judge NOONAN personally, but sympathized with what seemed to be the animus of his supporters, and defended them and their candidate from unjust aspersions. He will now, as Mayor of the city for the next four years, have noble opportunities for vindicating himself and the 26,688 voters who elected him, and rebuking once more all the injustices done them in the campaign. We believe that as many Noonan voters as Butler voters want nothing but honest, clean and efficient guardianship of the city's best interests in every department of her service, a fair and just exercise of responsible power, a proper deference to the will of the people, and especially that discrimination which is shown by a faithful, impartial enforcement of the popular will as embodied in the law.

What St. Louis and the Post-DISPATCH wanted above all things in this election was a discriminating choice by the people on a full vote, free from boss influence and the control party machines. Such discrimination, regardless of party lines, is the striking feature of the returns, and in its success we have reason to anticipate the best results in the future management of municipal affairs. But we warn all of the elect, just as we would have warned their competitors if elected, that the Post-DISPATCH will watch them with sleepless vigilance and, with the independence that asks no personal favors, expose all their mistakes and shortcomings in office.

A MUZZLE WANTED.

One of the four Prohibitionists in the Cabinet, Postmaster-General WANAMAKER, has converted his Bethany Sunday School at Philadelphia into a prohibition campaign club, and he delivers a prohibition speech there every Sunday, in which he tries hard to be more ultra than WINDOM was in that remarkable speech to the Anti-Saloon Convention at Chicago.

Last Sunday our Postmaster-General preached from the text, "Be not drunk with wine," and, ignoring the equally authoritative text, "Take a little wine for the stomach's sake," he argued that total abstinence is the Christian idea, and to vote for prohibition the Christian voter's duty. The man, he said, who wants to be free to drink a little occasionally is as much a slave to liquor as the habitual drunkard, while the man who votes for license or who refuses to speak out in favor of the prohibition amendment is under the control of the saloon influence. And these fanatical propositions he clinched with the words: "God's going to count the votes. Vote for prohibition and you will be voting for Him."

A bad habit of garbling Biblical texts and twisting them to the exigencies of political controversy or to the justification of the "sweating system" in the manufacture of cheap clothing may pervert a man's faculties until he sees God instead of QUAY at the head of a party committee and actually believes that God counted all the votes bought last November with the Wanamaker boodle, and rewarded the boodle with a Cabinet appointment. The man who goes into politics with no misgiving that his hand is unfitted to hurl the bolts of divine judgment and to deal damnation to all he deems the foes of Heaven, is generally too sure of the holiness of the end he has in view to be scrupulous about the means of reaching it. Some of the worst mischief-makers in history have been men of that type, but in this country the common sense of the American people soon gets the true measure of such men.

The only reliable news of the local election given to the public yesterday was contained in the Post-DISPATCH extra which was issued at 6 o'clock in the evening. Copies of the extra were taken like hot cakes and were eagerly sought by thousands of citizens. The result of the election was outlined with remarkable accuracy in the extra. Out of seven candidates for the principal offices six winners were named. These were NOONAN, ZEIGEMEINER, BROWN, FORESTER, HALYK and FLAD. CARKUTH was mentioned as leading WALBRIDGE for the Presidency of the Council and the result in this case was a cold day for machine politicians.

The best evidence of general municipal form and of the divorce of national & State from municipal politics is the indecision in the results of the city elections held yesterday, that the scratchers were actively engaged at the polls.

ANTI-PREBISHITON has carried the cities now for the Democrats, and extreme amount to those same thing Missouri's leading cities, this State

of his own party. The Democrats nominated a wealthy and worthy gentleman and appealed to the respectable elements of both parties to elect him. But the result shows that the respectable elements of both parties were either too small to elect a Mayor in Kansas City, or were as much divided between the two candidates there as in St. Louis. The probability is that the Hooligans and the dangerous classes were also pretty equally divided in both cities.

FEDERAL DSTRONGE does not seem to be much of a power in municipal elections. Without it the Republicans carried this city by a large majority last fall over the Democrats who had State, city and Federal patronage all on their side. Now, while the St. Louis Republicans are reviving in Federal patronage and in joyous anticipations of more, their candidate for Mayor is beaten by a plain Democrat who had no official favor at his back and whose chief element of strength was the opposition of the bosses of his own party.

The morning papers of Chicago, without distinction of party, were all down with ROCHE. It was a fight for elevated railroads against a surface track monopoly, and Democracy and progress beat monopoly by a large majority. It was also a rebuke to the Mayor who had fastened the Bell Telephone monopoly on the city with another twenty-year franchise.

Meeting With Emin Pasha After Many Adventures.

Description of Bunganga and Mouths of Gloom in the Heart of the African Forests—The Treacherous Native Troops—Pillage and Desolation in His Path—Awful Miseries Encountered by the Expedition—A Thrilling Account of Stanley's Progress.

April 2.—The great African explorer, M. Stanley, has at last been heard from in a graphic letter, dated on the River in August last. This letter, yes a graphic account of his meeting with Emin Pasha, and interesting description of Island, together with a thrilling account of his adventures, is as follows:

STANLEY'S LETTER.
NGANGA ISLANDS, ANUMI RIVER, [REDACTED]
August 26, 1888.
Chairman of the Emin Pasha Relief Committee

A short dispatch briefly announcing had placed the first installment of re- e hands of Emin Pasha, on the Albert was sent you by courier from Stan- with letters to Tippoo Tib, the Arab of the district, on the 17th inst., ree hour of our meeting with the leader of the expedition. MONEY.

REGULAR SESSION, CLOSING 1:15 P.M.

The Farmers and the Democrats were on top this morning.

Approved supplies of wheat on land and sea

arrived at 47½ cents per bushel, while the week before was 45 cents per bushel.

Prices of from 14 to 16 per cent. The

market was very evenly balanced, and the changes in quality were extremely small, though a general drooping tendency was noticeable from the start.

A few shares made slight advances in the early dealing, but the market was very quiet, and the general weakness appeared in some portions of the list. Lackawanna had a special weak position, and was the lowest in the stock market.

Missouri Pacific and Reading came next, but they had no further feature of note to the dealing and at 1 o'clock the market was very quiet.

Gas was exceptionally well held. There was no

feature of note to the dealing and at 1 o'clock

the market was very quiet.

For March, 23, 1888, 200 bushels of corn

OC

THE PENSBURGS HERE.

WHAT PHILLIPS AND DUNLAP THINK OF THE VARIOUS CLUBS.

Ward Still Refuses to Become a Senator—Jack McAluliffe Insults a Gentleman Who Fights a Little Blimp—The Mayflower Sold—A Young Nobleman's Information for Betting—Sporting News Generally.

HUSTLING Horace Phillips and his aggregation of Pittsburgh players arrived at 11 A.M. yesterday from Cincinnati and are quartered at the Lindell. The players are: Fields, Miller and Lauer; catchers; Galvin, Morris, Conway and Staley; pitchers; Beckley, first base; Dunlap, second; Smith, shortstop; Kuehne, third base; and Allen, who will probably be the manager. Hanlon of the old Detroit League Club, the regular center-fielder of the Smoky City team, has not joined them as yet, nor has Carroll, Morris' regular catcher. Garfield, the young pitcher of last year's Toledo Club, is attending Oberlin College. He will graduate in July and will then join the Pittsburgh team.

Manager Phillips made light of the two defects sustained by his team at Cincinnati. "It amounts to nothing," he said. "We had no practice and the Cincinnati Club had been on the field nearly every day. We will be all right when we get to the Pennsylvanias Monday. It was the first game we had played together, and the men were very stiff, and our pitchers dared not let themselves out for fear of crippling themselves. I never saw a team in better shape than those Cincinnati chaps were. They were as frisky as a lot of colts, and I think they will have something to say about the American Association this year. Gus Schmelz said we played remarkably well for a club which had not had any practice, and he bet Dick Carpenter \$50 that we would stand fourth or better in the League at the end of the season."

"What do you think of the chances of your club?" "I never make predictions, and do not care to make any now, as they may be afterward shattered. However, I feel that we will do well between Boston and New York, which is most likely to win."

"Is it true that the management of your club has got into financial difficulties?" "The club is in financial difficulties, but we have \$16,000 for the releases of players, and this left them \$10,000 behind. Going into the League will not help us much. While our attendance has not averaged so high as it did in our big year in the Association, we have received more money from the public, and our receipts have been much greater. Last year our receipts were over \$22,000 larger than when we were in the Association, but we are a much more expensive club. The Pittsburgh people would not return to the Association under any circumstances, and their patrons have not come up to the mark. They will have no other. When I went to Pittsburgh the club could have been purchased for \$20,000."

Fred Dunlap, the old second-baseman of the Maroons, who is Captain of the Pittsburgh, also claimed that the team was not trim when it met the Cincinnati team, and said this tour was made for the purpose of getting them in shape. While he did not say that the Cleveland Indians and Browns to Boston, he thought they would do better than at Cincinnati. "We have a splendid chance to win the pennant," he said. "We have a good chance to win the pennant. New York and Boston both have very strong clubs, but we have a good chance to win the pennant. We will cut any figure in the race, and Chicago is not the ghost of a show. We have a good lot of players all around. If we don't get there we will be very close to the winners. Men are good hitters and that is what tells."

"Who will win in the American Association?" "I think it will be between the Brooklyn and Athletics. The latter have a fine batting record. The Cincinnati team is in good shape, and the Browns are apt to stand well. It would not surprise me a bit to see them win, as their luck is phenomenal. Their pitchers are good, and they have always been the mainstay of the club."

"How do you think the League and American Associations will compare?" "There is no comparison. In the League they play ball altogether different from what they do in the Association. The players are not as good as in the Association. The players in the Association are not as good as in the League. They run bases more freely in the Association, but are never taught how to play ball. I think the series between the Browns and Dodgers will be a close one. You can't tell the fact that there is no comparison between the two Associations."

"That was no criterion because the Chicagoans were drunk every night while the series was arranged and the proposed date for yesterday. For Barnes and John A. aging editor of the Journal, and the Post-DISPATCH.
